

# CMDCAS quality management system audit

Nemko performs the QMS audit for CMDCAS. Canadian Medical Devices Conformity Assessment System (CMDCAS) is required by the Standards Council of Canada to certify that Medical Devices are manufactured under a certified quality management system that meets the criteria of the international standard ISO 13485.

## Advantages using Nemko for CMDCAS

- Joint audits for more countries
- Competent auditors
- ISO 13485 certificates
